82 THE WORLD OF BOEN

DEAR FRIENDS OF PARQUET,

2014 was a very exciting year: after an intense period of preparation, we unveiled our new style advisor concept. Several discussions with you over the course of the year convinced us that the concept would be met with great interest. Thanks to the 4 styles "Pure Nordic", "Modern Rustic", "Urban Contrast" and "Classic Elegance", the search for the right hardwood floor has become even more inspiring for end consumers. Over the course of 2015, we will work on raising awareness of our new concept on the market, while of course still remaining focused on product development.

We have extended the exclusive collections Chalet and Chaletino with new and attractive colours that are particularly striking when used as part of the richly contrasting Urban Contrast style: Oak Highland, Oak Yellowstone and Oak Tobacco. We now also provide an elegant, calm Nature grading in the Chaletino range, something that has been regularly requested by our customers.

We have also made changes to the two-layer range: with a new design for Prestige, the streamlining of the range, the Maxi strip in a new format and the ready-to-use oiled new surface Live Natural, we are focusing on our strengths while also future-proofing the range for you.

The highlight of our new range is a unique, innovative surface with an ultra matt finish. The oak planks with the "Live Pure" surface are characterised by their very natural look – almost like untreated wood – and their excellent functional characteristics. They are perfect for furnishing in the Pure Nordic, Modern Rustic or Classic Elegance styles! Oak planks with Live Pure will be offered from April 2015.

And finally, we have launched our new English-language Internet site boen.com. Take a look!

We wish you a very successful 2015.

Best wishes,

GEIR WÅLAND
President of the BOEN brand

S4020-B

ADVANCED TECHNOLOGY AND HIGH QUALITY

As an experienced parquet flooring company with a long tradition we always offer you wooden parquet floorings of high-grade quality and advanced technology.

BOEN QUALITY

We produce parquet flooring with top level of quality. And the process of developing new technology or increasing range of products never stops. With monitoring system that checks every aspect of production, we are so sure our production meets highest standards of quality, that we give our customers 20 year warranty.

Underfloor heating

Want to use BOEN wooden floors with underfloor heating? No problem! BOEN hardwood flooring is an ideal floor covering to place above underfloor heating system. Our floors have efficient thermal conductivity and lets you enjoy comfort of warm floor. For best heat transference we recommend gluing floors instead of using a floating system.

Different installation possibilities

Glued, nailed or floating? Parquet can be installed on most types of flooring. Problems such as uneven sub-flooring, moisture, sound proofing etc., can be resolved with the help of technical expertise from BOEN's sales and service team.

For more information, please refer to your parquet installer or our BOEN sales team.

We ensure our floors are top quality by giving our customers a 20 year warranty.

BOEN AS
EN 14342

We work hard not only to maintain high quality of our production, but we also keep on looking for ways to improve.

BOEN X-PRESS – THE RAPID LOCKING TECHNOLOGY

Take advantage of the BOEN X-press lockingsystem on the short ends of the boards of all BOEN Clic products.

- › A quicker and easier way to install single boards without tools
- › Significantly reduces installation time
- › The clear Clic sound lets you know when installation is complete
- › Also suitable for full-surface gluing onto the sub-floor

On the long side of the board, BOEN uses the regular Clic system.

BOEN X-press: When pressing down on the board, the flexible tongue will lock and make the "single action" movement possible.

BOEN.COM

Wood is a natural product. Some types of wood – beech, for example – have a relatively calm grain. Others, like oak, are rich in structure, with a spectrum of calm to rustic. We offer a wide selection for you to choose from.

	CALM	LIVELY	RUSTIC
Adagio, Select			
Andante, Nature			
Basic, Concerto, Contract, Finale			
Animoso, Bellevue, Country, Forte, Rustic			
Allegro, Baltic, Traditional			
Canyon, Vivo			

Wood is a product of nature – each tree has its own structure and individual colour combination. An image or a sample will therefore never be able to give you a complete picture of the finished floor. Please also note that the colour may change when exposed to light. As a guideline, darker wood species will get a more golden tone, whereas lighter species will become slightly darker.

CALM

Consistent growth; free of knots; standing or half-standing yearnings.

LIVELY

Natural grading with small to medium knots; a limited spectrum of colours due to sapwood and heartwood.

RUSTIC

Structure and vivid growth; larger knots and sapwood; a rich spectrum of colours.

LONGSTRIP

The classic among the parquet floorings. The varied pattern provides a lively and modern look and is excellently applicable for different room situations.

Oak Finale, longstrip

*Oak Smoked with Live Natural in preparation

Longstrip 209 mm

Longstrip 139 mm Strongline

Longstrip 209 mm

A 3-strip flooring with modern design. Very flexible and easy to use. Longstrip parquet flooring is enhanced with BOEN X-press locking system, which makes installation of this floor incredibly easy.

Longstrip 139 mm Strongline

With its top layer of approx. 5.5 mm Strongline is particularly appropriate to be used in high-frequented areas. With tongue and groove profile for traditional installation.

Longstrip 209 mm

- The expressive parquet flooring of varied looks
- With BOEN X-press this flooring is rapidly and reliably installed
- With immediate audible feedback
- Dimension: 14 x 209 x 2200 mm
Top layer: about 3.5 mm
Middle layer: 8.8 mm
Bottom layer: 1.7 mm

LIVE PURE PLANKS

NEW
April 2015

As pure and clear as untreated wood – this is the special attribute about our new surface finish Live Pure. Live Pure protects the wood thanks to a special treatment applied to the surface which leaves the look of the hardwood floor naturally light.

Oak Animoso, plank

Plank 138 mm

Plank Castle 209 mm

Planks in 2 widths

Planks with Live Pure are offered in the classic width of 138 mm, as well as the high-quality Castle width of 209 mm.

Our tip: give your flooring even more of a high-quality look by combining both widths.

Oak Plank

138, 209 mm

- > The planks are safely protected by the new surface Live Pure
- > All planks are brushed and have a bevel on length sides of the board (2V)

STONEWASHED COLLECTION

Distinctive contrasts of lava rocks or gleaming gloss of a pearl – floorings of the Stonewashed Collection are inspired by nature. Brushed, distinctive structures and a surface treated with Live Natural oil let you feel the flooring with all senses.

Oak Sand, plank Castle

* Oak Lava, Shadow and Stone in preparation

Available in two formats

BOEN Stonewashed boards are available in two formats: As classic plank boards of optimum width and length ratios – as well as broad and exclusive Castle boards for a spacious room effect.

Harmonious look: Skirting boards made from BOEN parquet

We manufacture skirting boards in almost every finish in the BOEN product range. You can find skirting boards in Stonewashed Collection colours on page 53.

Stonewashed Collection 138, 209 mm

- › Earth colours and high-contrast structures constitute the effect of this range of products
- › All Stonewashed products are equipped with a micro bevel on the longitudinal side
- › Only entire lengths of 2200 mm are supplied for 209 mm width
- › Dimension: Plank: 14 x 138 x 2200 mm
Plank Castle: 14 x 209 x 2200 mm
Top layer: ca. 3.5 mm

FASHION COLLECTION

Anything but ordinary. The colouring and texture of the oak surface in our new Fashion Collection are both fascinating and inspiring. Exclusive plank floors for trend-conscious furnishing styles.

Oak Shabby Cream, plank Castle

Plank Castle 209 mm

A new take on oak planks

The elaborate wood structure and colouring of the surfaces make the 209 mm wide planks in the Fashion Collection the best possible choice for interior designs that are both exclusive and unique. Exquisite oak is planed, sanded and brushed in numerous steps. The texture is emphasised with stain or coloured oil, before the surface is finished with our Live Natural.

Tone in tone

For a harmonious overall surface appearance, we recommend skirting boards in the Fashion Collection colours. See page 53.

Fashion Collection 209 mm

- › Exclusive 209 mm oak planks with special surface finish, available in a wide range of colours
- › Easy and quick to install with BOEN X-press
- › Only entire lengths of 2200 mm are supplied
- › All planks with bevel
- › Dimension: 14 x 209 x 2200 mm
Top layer: ca. 3.5 mm
Middle layer: 8.8 mm
Bottom layer: 1.7 mm

BOEN X-PRESS

Type of wood	Features	Live Natural		
		Article no.	€/m ² Net price	Bevel
Oak White Nights	Very deep brushed planks with black-filled knots. White natural oil penetrates deep into the wood structure and creates a pale appearance.	SBGVVMFD	99.90	2V
Oak Shabby Cream	A cream stain brings out the grain of the planed surface. The surface is oiled with Live Natural.	SCGV4MWD	100.95	4V
Oak Golden Valley	At first glance it just looks like an exclusive oak plank. But touch it, and you will be surprised. The planks are lightly planed in a wave pattern.	SIGV4KWD	97.95	4V
Oak Indian Summer	Very deep brushed oak planks with black-filled knots.	SAGVVKFD	96.90	2V
Oak Sandy Grey	An exquisite, subdued colour shade brings out the texture of the planed oak plank. Finished with Live Natural.	SHGV4KWD	100.95	4V
Oak Shabby White	Clear white brings out the planed surface and gives the planks a very pale appearance. Live Natural protects the surface.	SDGV4MWD	100.95	4V
Oak Blue Moon	A fascinatingly rich colour brings out the planed structure of the surface. Live Natural provides the surface with natural protection.	SGGV4KWD	100.95	4V
Oak Mystic Jungle	The planed and colour-treated oak planks create a dark and mysterious impression. The surface is finished with Live Natural oil treatment.	SFGV4KWD	100.95	4V

INFO

1 package = 6 elements = 2.76 m² = 23 kg, 1 pallet = 50 packages = 138 m².

We only deliver whole lengths, without slotted top layers. We can only deliver complete packages.

Due to the plank grain, small, unfilled depressions or fissures may be present. These are part of the surface character.

CHALET AND CHALETINO

Large and impressive rooms in private or public buildings invite you to make a special feature of the floor. Chalet and Chaletino are perfect for this task: exceptionally large formats in all three dimensions, and individually cut so that each floor ensures that a room is presented in its best light.

Oak Coral, Chalet

Plank Chaletino 300 mm

Plank Chalet 200-395 mm

Chalet

BOEN Chalet boards are individually manufactured. We develop a proposal for the optimum composition of different board widths and lengths according to your room drawing. Only after your confirmation and the confirmation of your customer we start the production of these valuable boards.

Chaletino

The attractive planks measuring 2750 mm length by 300 mm width accentuate the size of large room situations. The 1 mm x 45° micro-bevel on all 4 sides emphasises the generous length and width of these large planks.

BOEN Chalet 200–395 mm

- The stable 3-layer structure has an oak wood top layer with a thickness of about 4.5 mm. The noble top layer originates from valuable oaks grown in the Baltic States with an age of 150 to 200 years
- BOEN Chalet boards are safely installed with the classic tongue and groove connection. All items are equipped with a four-sided bevel
- Filled knots slightly subjacent
- Dimension:
 - Top layer: ca. 4.5 mm
 - Width: 200/ 250/ 300/ 350/ 395 mm
 - Length: 2000 - 4000 mm
 - Board thickness: 20 mm

SOLID PLANK

*Enjoy the fascinating properties and the longevity of real solid boards:
a warm and vital room feeling and a high-quality ambiance.*

Oak Tobacco, solid plank

Solid plank 137 mm

Solid plank 162 mm

Solid plank 187 mm

Personal style

Dare to choose flooring with strong personality: Solid wood with special surface treatments give a distinctive appearance of years of wear. The use of dark stain or colour-pigmented oil creates a unique floor where the annual rings in the wood are accentuated. Our solid floors have a rustic grading, knots and cracks are plugged and filled using genuine handwork.

Genuine and individual

We offer our solid planks in three different widths ranging from 137 to 187 mm. Our tip: install a mix of all three dimensions in your house. This will enhance the beautiful look of these planks.

Solid plank

137, 162, 187 mm

- BOEN solid boards are finished with Live Natural Oil and dried in the air according to the traditional technique. This way, they are perfectly protected and the lively character of the wood is maintained
- The boards are offered in three widths. All items have a circumferential micro bevel
- Dimension: Width: 137/ 162/ 187 mm
Length: 800 - 2220 mm
Board thickness: 20 mm

BOEN 2-LAYER-COLLECTION

Discover the diverse world of the BOEN 2-layer product range. No matter if it is used for creative flooring patterns in high-quality building areas or for the renovation of existing buildings. It is always about traditional craftsmanship.

Cherry American, Prestige, herringbone pattern

* Oak Smoked with Live Natural in preparation
Traffic: no building authority approval

Individual variety

Our collection of 2-layer wooden flooring includes classic products such as Prestige, Traffic and Maxi for the creation of traditional patterns. A collection that always provides the perfect real wooden flooring for both private living areas as well as high-traffic properties.

With our Finesse and Noble board formats we offer a wooden floor which, thanks to its limited height, is perfectly suitable for use in existing constructions. This means that exclusive board patterns can be placed with smooth transitions to adjoining areas.

Prestige 10 mm

NEW

- The creative design solution with left-hand and right-hand strips for installation of individual patterns
- Ideal for the renovation of living rooms and working areas thanks to its low height of only 10 mm
- Prestige is directly glued on the subfloor
- Dimension: 10 x 70 x 590 mm
Top layer: ca. 3.5 mm
Bottom layer: 6.5 mm spruce

FINESSE

*A small but exquisite plank format.
Classic oak, modern refined oak surfaces,
or utterly exclusive walnut.*

Walnut American Nature, Finesse

* Oak Smoked with Live Natural in preparation

Finesse 1350 mm

Special-format planks

The dimensions of Finesse planks are attractively unique. Although the surface is reminiscent of a classic plank floor, the smaller size of Finesse planks creates an attractive surface that is much more vibrant. Two layers on a pine base are covered with a real wood top layer, creating an overall installation height of just 10.5 mm. Perfect for existing buildings.

Finesse 10.5 mm

- › The exquisite Finesse plank with its two-layered structure, available in special lengths and widths
- › Bottom layer: spruce
- › Glue down directly to the subfloor
- › Dimension: 10.5 x 135 x 1350 mm
Top layer: ca. 3.5 mm
Bottom layer: 7 mm spruce

NOBLE

A typical plank with a two-layered structure that is anything but typical. The oak planks come in a wide range of fascinating, elaborately finished surfaces.

Oak Old Grey, Noble 178 mm

Noble 2200 mm

Exclusive planks

Noble combines the large-area and continuous top layer of typical planks with the advantage of an unusually low installation height. Noble is just 9.7 mm thick, making it the excellent choice for renovations. Same-level transitions to neighbouring rooms with tiled or carpeted floors can be created without any problems. Noble is also ideal for taking advantage of the low installation height in new buildings with open plan rooms. A same-level transition from elegant hardwood flooring in the living area to the tiles of your choice in the open kitchen can be achieved without any problems.

Noble 9.7 mm

- Planks in genuine country house format, particularly good for refurbishments
- Noble has an HDF-reinforced base and offers superb dimensional stability
- Available in two widths: 136 and 178 mm
- The planks have a standard (2V) bevel down the long sides
- Dimension: 9.7 x 136/ 178 x 2200 mm
Top layer: ca. 2.8 mm
Bottom layer: 6.9 mm HDF

BOEN SPORTS FLOOR

The floor is the most important part of any sports facility – each activity depends on the floor. That is why the choice of a floor is so important. Elastic sports floor systems featuring BOEN hardwood flooring or synthetic flooring are the perfect choice for sports halls, squash courts, aerobic studios, dance schools, as well as rehabilitation and fitness settings.

Boflex

- An elastic sports floor for the sports and multi-purpose usage for floating installation on even sub-floor, e.g. screed.
- Top layer BOEN parquet flooring with double tongue and groove profile and bottom elastic strips*
- Boflex Stadium Construction height: 28.0 mm
Dimension: 28 x 137 x 2200 mm
Top layer: ca. 3.5 mm

ACCESSORIES

BOEN offers a wide range of accessories – from insulating underlays, skirting boards made from BOEN parquet and profiles right through to stair nosings. The key to keeping hardwood flooring looking pristine over the years is to ensure that it is cleaned and cared for correctly. With this in mind, we offer a comprehensive range of care and cleaning products.

Osmo floor brushes Width 220 mm, for BOEN Natural Oil		1	A701S003	25.80

4 STEPS TO CHOOSE YOUR FLOOR

We are sure that there is a potential for category growth by starting the sales conversation with: Which style do you like? We have thus developed a step-by-step sales process. We also offer inspiring in-store material, as well as a show-room concept, that supports the decision-making in each step. Our ambition is that the consumer will appreciate that the floor really plays an integral part in creating a consistent interior style.

1

CHOICE OF STYLE

Most of us do not really fit only one style. But people tend to lean more towards one style than the other. To help your customer choose a style, we recommend that you use posters, images, our new in-store concept, the style handbook, as well as our virtual floor studio, to present the various styles. Then ask them which style is closest to the style that they are striving to achieve, and which style makes them feel comfortable and at home.

CLASSIC ELEGANCE

2

CHOICE OF COLOUR

Each type of wood has a distinctively characteristic colour. The BOEN product range contains a large choice of colours to suit a diverse range of furnishing styles and new trends. To help the consumer choose the colour that will complete their interior, we have sorted our products into the four styles. Although it is not an "exact science", and you will find that some floors fit more than one style, we firmly believe that the sorting will help your customer make a good decision – and help you to give good advice.

FIND THE FLOOR OF YOUR DREAMS

You can experience the impression created by your chosen floor in our digital showroom on www.boen.com/floorstudio

3

CHOICE OF FORMAT

The appearance of a large room is accentuated by the use of large planks. And a home with a classic style will be further enhanced with a traditional pattern from our 2-layer range. Once your customer has decided on a colour, you will present them with the available formats and guide them in making a good choice suiting their style – and their budget.

4

CHOICE OF SURFACE

Oil-treated floors emphasize the character of the wood and give the hardwood flooring a very natural feel. Lacquered surfaces are easy to care, and come in both glossy and matt look suiting different styles. Thanks to a special treatment, floor with Live Pure have a naturally look. Guide your customer to choose the surface treatment that enhances their style – and their lifestyle.

4

STYLES

1

2

PURE NORDIC

Clean lines in light, airy rooms. The look is simple, elegant and natural. No unnecessary detail or ornaments, no unruly quirks or strong colours. The rooms provide peace and quiet. The interior is functional and minimalist. White dominates, but the look is far from cold. Warm woodwork in blond tones brings nature inside, and creates playful surfaces. This style is inspired by the Nordic summer light and proximity to nature. It brings lightness and radiance to a long, dark winter, and the senses are filled with quality and harmony.

MODERN RUSTIC

Welcome back to the authentic and the real! This style takes us back to country life in the good old days, while retaining a modern look. The materials are rough and natural: rustic woodwork, linen, cotton and rattan together with modern and more masculine elements. But the main look is feminine, warm and summer light. The colour palette is neutral and soft, with ample greys, pastels and powder blues. Nostalgia is combined with steel and industrial objects - and the style is transported to our modern lives.

Did you know that the floor is the largest furniture in a home? It therefore plays an integral part in creating a consistent interior style. Together with the interior style expert Helle Tjaberg we have selected four major style groups, and divided our extensive assortment of hardwood floors into each style. The aim is to provide inspiration and advice on how to succeed in creating an interior that suits your personality.

3

4

URBAN CONTRAST

Break the rules! Mix and match! The interior is full of contrasts, but a cosy warmth remains the constant backdrop to whimsical ideas. Earthy and playful, functional and creative. The designers have been inspired by the past but have broken all the established rules and have played with shapes, colours and graphic patterns.

Organic lines and materials such as fibreglass and plastic are typical. The same applies to the combination of warm earthy tones with strong, bright colours. The look is fresh, modern and personal.

CLASSIC ELEGANCE

You can sense the historic roar of the ancient Romans and Greeks. The style is refined, symmetrical and elegant, but with a modern touch that allows for creative breaks and unexpected detail.

Order, beauty and classic lines set the scene, with a timeless quality in furniture and design that has been around for generations. A blend of classic and new design adds personality to each room. And the colours are inspired by nature: earthy tones, deep green, red and navy – together with greys and beiges.

2-LAYER PARQUET

SOLID FLOORS AND 3-LAYER PARQUET

*BOEN performance classifications:

Depending on the field of application of our parquet floorings it is subject to different stress and wear. The Brinell hardness of the wood, the width of the boards, the structure, the thickness of the top layer as well as the surface treatment (sealing or oil treatment) are significant for the stability and durability of your flooring.

Performance classification 1 = normal

Hardwood floors in living areas subject to normal usage. Exception: Wet areas and entrance areas.

Performance classification 2 = medium

Hardwood floors in living areas, in administration, meeting and conference areas, kindergartens, consulting rooms etc. subject to average usage.

Performance classification 3 = heavy

Hardwood floors in heavily frequented areas such as shops, restaurants, entrance areas, schools, conference halls, dance halls, etc.

2V bevel:

Bevel on longitudinal side of the board (total of 2 on one board).

4V bevel:

Bevel on all 4 sides of the board.

NEW

03 PRESTIGE 02 TRAFFIC

Dimensions:

Prestige: 10 x 70 x 590 mm, Traffic: 12.5 x 70 x 590 mm

Tongue/groove

Fields of application:

For installation of designs and patterns. With a top layer of approx. 5.5 mm Traffic is particularly appropriate to be used in highfrequented areas. Including left and right strips. Bottom layer made of spruce.

Types of installation: Glue down to subfloor.

Floor heating systems: Prestige / Traffic: very well suitable.

Performance classification*: Prestige: 1-2 / Traffic: 3

Fire protection classification:

Cfl-s1 and Dfl-s1 depending on wood specie and surface treatment.

Top layer Prestige: ca. 3.5 mm

Top layer Traffic: ca. 5.5 mm

NEW

04 MAXI

Dimensions:

10.5 x 100 x 833 mm

Tongue/groove

Fields of application: Classic 1-strip product of outstanding dimensions. This format is longer and wider than common 1-strip products. The model with its exclusive effects is excellently appropriate for large floor surfaces. Standard: right-hand strips. Left and right strips on request.

Types of installation: Glue down to subfloor.

Floor heating systems: Very well suitable.

Performance classification*: 1-2

Fire protection classification:

Cfl-s1 and Dfl-s1 depending on wood specie and surface treatment.

Top layer: ca. 3.5 mm

05 FINESSE

Dimensions:

10.5 x 135 x 1350 mm

Tongue/groove

Fields of application: A single-strip product whose dimensions nearly create the impression of a plank. Its low installation height of 10.5 mm makes Finesse the perfect solution for refurbishment/renovation projects. Bottom layer made of spruce.

Types of installation: Glue down to subfloor.

Floor heating systems: Very well suitable.

Performance classification*: 1-2

Fire protection classification: Dfl-s1

Top layer: ca. 3.5 mm

06 NOBLE

Dimensions:

9.7 x 136/178 x 2200 mm

Tongue/groove

Fields of application: The 2-layer plank is perfect for renovation purposes. The attractive plank format fits very well to big rooms. Bottom layer made of HDF. Bevel on the longitudinal side (2V).

Types of installation: Glue down to subfloor.

Floor heating systems: Very well suitable.

Performance classification*: 1-2

Fire protection classification: Dfl-s1

Top layer: ca. 2.8 mm

with 2V bevel

CHOICE OF FORMAT

NEW

01 ECONOMY

Dimensions:
9.5 x 70 x 470 mm

Tongue/groove

Fields of application: With a top layer of 2.5 mm, Economy offers cost-efficient access to classic strip hardwood flooring. Only right-hand-strips.

Types of installation: Glue down to subfloor.

Floor heating systems: Very well suitable.

Performance classification*: 1–2

Fire protection classification: Dfl-s1

Top layer: ca. 2.5 mm

08 LONGSTRIP

Dimensions:
14 x 209 x 2200 mm

BOEN X-press

Fields of application: The classic among the parquet floorings. For a lively and diverse appearance. Well appropriate for lots of room situations.

Types of installation: For the quick and easy floating installation without glue.

Floor heating systems: Well suitable to very well suitable.

Performance classification*: 1–2

Fire protection classification:
Cfl-s1 and Dfl-s1 depending on wood specie and surface treatment.

Top layer: ca. 3.5 mm

09 LONGSTRIP STRONGLINE 21 MM

Dimensions:
21 x 139 x 2200 mm

Tongue/groove

Fields of application: Our strong longstrip with approx. 5.5 mm top layer, designed for public areas in high-frequented rooms (restaurants, hotels, exhibition rooms, etc.)

Types of installation: Glue down to subfloor.

Floor heating systems: Well suitable.

Performance classification*: 3

Fire protection classification: Oak: Cfl-s1, other types of wood: Dfl-s1

Top layer: ca. 5.5 mm

10 PLANK 138

Dimensions:
14 x 138 x 2200 mm

BOEN X-press

Fields of application: Our classic plank boards of optimum width and length ratios for an attractive look of the room over the whole surface. All Oak planks with bevel.

Types of installation: Floating installation or glue down to subfloor.

Floor heating systems: Well suitable to very well suitable.

Performance classification*: 1 – 2

Fire protection classification:
Cfl-s1 and Dfl-s1 depending on wood specie and surface treatment.

Top layer: ca. 3.5 mm

11 PLANK 181

Dimensions:
14 x 181 x 2200 mm

BOEN X-press

Fields of application: An exclusive variation on a plank floor with a width of 181 mm that is particularly effective in larger rooms.

Types of installation: Floating installation or glue down to subfloor.

Floor heating systems: Well suitable to very well suitable.

Performance classification*: 1-2

Fire protection classification:

Cfl-s1 and Dfl-s1 depending on wood specie and surface treatment.

with 2V bevel

Top layer: ca. 3.5 mm

12 PLANK CASTLE

Dimensions:
14 x 209 x 2200 mm

BOEN X-press

Fields of application: Plank boards with an exceptional width for particularly spacious room effects. Micro bevel on the longitudinal side or circumferential bevel (2V/4V).

Types of installation: Floating installation or glue down to subfloor.

Floor heating systems: Well suitable to very well suitable.

Performance classification*: 1-2

Fire protection classification:

Cfl-s1 and Dfl-s1 depending on wood specie and surface treatment.

with 2V/4V bevel

Top layer: ca. 3.5 mm

14 CHALET 13 CHALETINO

Dimensions:
Chaletino: 20 x 300 x 2750 mm
Chalet: 20 x 200/250/300/350/395 x 2000-4000 mm

Tongue/groove

Fields of application: With extraordinary formats these boards are very well appropriate to noble rooms. With bevel on all four sides (4V).

Types of installation: Glue down to subfloor or nail/ screw.

Floor heating systems: Well suitable.

Dimensions:
20 x 137, 162 or 187 x 800-2220 mm

Tongue/groove

Fields of application: Solid floors are fascinating by their original character and by their durability. Bevel on all four sides (4V).

Types of installation: Glue down to subfloor or nail/ screw.

Floor heating systems: Suitable up to 137 mm.

Performance classification*: 3

Fire protection classification: Cfl-s1

with 4V bevel

STEP

4

CHOICE OF SURFACES

BOEN places considerable emphasis on protecting the environment during all phases of production. Neither lacquer nor oil emit gases which are harmful to humans or to the environment. BOEN offers its customers a wide range of surface finishes.

NEW

LIVE PURE

Live Pure is the new innovative product development from BOEN: Oak planks with Live Pure surface treatment have a very natural look with ultra matt finish and very good protective characteristics. Live Pure protects the floor from dust, dirt and liquids thanks to a special treatment applied to the surface which leaves the look of the hardwood floor smooth, clear and naturally light – almost like untreated wood.

LIVE MATT LACQUER

This 6 layer Live Matt sealing with a very low gloss level makes the surface look "as oiled". A natural look combined with the advantages of a scratch-resistant finish.

LIVE SATIN LACQUER

Very hard-wearing factory-applied 6 layer silk finish considerably reduces the care requirements and increases the durability of the parquet floor. Live Satin is cured by UV light and does not emit any dangerous chemicals or gases.

LIVE NATURAL OIL

Live Natural is a natural surface treatment containing oils such as sunflower, thistle or soya bean oil as well as naturally occurring waxes (carnauba, candelilla). Deep penetration of the oil into the wood is ensured by two-time application on a custom-made production line. The wood pores are saturated, and drying takes place completely naturally in the open air during a process known as the Air-Plus Process. The floor is ready-to-use right after installation and has extremely good protection properties against liquids compared to competitive products.

ENVIRONMENTAL PRINCIPLES

Hardwood flooring is a natural product. As a company that works wood, BOEN has been entrusted with upholding an important legacy.

WE TAKE CARE

It is by constantly engaging in dialogue with environmental protection agencies and organisations and by investing in new production technologies that we are able to ensure careful use of this precious resource. More than 95 % of all our raw materials are sourced from sustainably managed European forests that are already certified according to systems such as FSC™ or are working towards certification.

Oak is an extremely flexible raw material. It has endless possibilities regarding surface treatments, and this create unique colours and expressions.

CERTIFICATES

Across the globe, *the Forest Stewardship Council, FSC™*, promotes an approach to forest management that is environmentally appropriate, socially beneficial and economically viable. The companies within the BOEN Group have implemented a chain-of-custody system in accordance with the standards of the FSC and are able to supply FSC-certified products. BOEN supplies products with the FSC Mix label. We hold the following licences: BOEN Bruk (Norway) FSC™ C051117, BOEN Parkett Deutschland (Germany) FSC™ C101713, BOEN Lietuva (Lithuania) FSC™ C021510, BOEN UK FSC™ C047288, BOEN US FSC™ C095158. www.fsc.org, FSC – The mark of responsible forestry.

The SmartWood programme established by *the Rainforest Alliance* makes high demands on purchasers, manufacturers and land owners in order to achieve a sustainable approach to forest management worldwide.

The Real Wood logo is administered exclusively by authorised manufacturers belonging to the European Federation of the Parquet Industry (FEP). The decision in favour of real wood owes ecological benefits. To manufacture, work and store wood one need considerably less energy than for other materials.

The *conformity mark* guarantees high standards of structural quality by testing and certifying construction materials in respect of their technical, ecological and health-related properties. Thus guaranteeing home owners a healthy climate, and stockists and fitters product safety and transparency.

Products with the *Der blaue Engel* (Blue Angel) seal of quality contain very low levels of emissions in order to ensure a healthy indoor climate.

ENVIRONMENT-FRIENDLY

Why choose multilayer hardwood floors?

Multilayer hardwood flooring is always an environmental-friendly decision. Compared with solid floors, multilayer hardwood flooring needs less hard wood. The amount of hardwood that is needed to manufacture one solid floor is sufficient for six multilayer hardwood floors.

Natural hardwood layer

There is a choice of more than 13 types of wood for the sturdy top layer. The various surface treatments underline and accentuate the grain of the wood, each in their own unique way.

Middle layer

The middle layer consists of carefully selected wooden slats from quickly replenishable spruce trees. Vertical or semi-vertical annual growth rings ensure a high level of dimensional stability.

Bottom layer

The bottom layer is made from a single piece of spruce veneer and ensures a stable counter draw.

BOEN VALUES

BOEN is known for a long and proud tradition of craftsmanship, based on respect for nature's resources. As a major international supplier of high-end hardwood flooring, we have also made a commitment to inspire and guide the consumer to achieve a consistent interior style. That is why we are guided by the following values:

1

INNOVATIVE MADE FROM DIVERSITY

BOEN is an international company and we recognize that people are different, with different styles and habitat. We dare to challenge, lead on and think differently in our effort to help our costumers fulfil their personal interior style.

2

INTERIOR CONSCIOUS

We know that the goal when making a floor investment is not a merely beautiful floor – but a beautiful home. Consequently we strive to offer the consumer updated inspiration and advice that make the interior decorating process easier – and more fun. We are conscious of interior style and design and are constantly monitoring upcoming trends.

3

END USER ORIENTED

In BOEN we are careful not to distance ourselves from our customers and consumers. We understand trends and development in architecture, style, fashion and interior, and have the know-how on how to translate this to real-world needs.
